

Information Governance

Week 1 – Skills Assessment

Using the following table and guidance, complete a personal skills assessment related to this module. You will upload a copy to Blackboard for the module leader to access; this will help your teaching team gauge your relevant knowledge and experience at the beginning of the module. To add text simply left click in the boxes.

Work related experience

Have you undertaken any part-time or full-time work at any point? What did you do?

Knowledge/experience of ITIL

Do you have any knowledge or experience of ITIL? If you have worked in industry at any point it's possibly you could have been using ITIL without realising; a ticket-based helpdesk system is usually modelled around the ITIL framework, for example.

Knowledge/Experience of information governance or legislation

How much do you know about information governance? Have you ever heard of ISO27k? Have you undertaken information security training at any point (e.g. during work or as part of an internship or placement opportunity)? What do you know about the law in relation to IT? Are you familiar with the Data Protection Act or GDPR?

Other Modules

Please list your other modules undertaken at University (a general idea will be fine). Do you have an idea of what your final year project will be about?

Please add anything you feel could be beneficial to your learning in this module:

Upload a copy of your Skills Assessment to Blackboard. The submission link can be found in Learning Materials>Week 1. Note that this is not formally assessed but forms part of the learning materials for week 1. You will be able to access your submission at any time throughout the module to add/edit.
